TO OUR PROSPECTIVE SPONSORS:

ENVIRONMENTAL EDUCATION VIRTUAL CONFERENCE

The Missouri Environmental Education Association (MEEA) is a 501(c)3 non-profit organization whose mission is to help educators inspire Missourians to care about, understand, and act for their environment. MEEA operates the Missouri Green Schools program, provides a structured pathway to professional certification in environmental education (EE) for formal and non-formal educators, among other efforts to advance EE in Missouri.

We are excited to partner with the Kansas Association for Conservation & Environmental Education (KACEE) again this year for the 2021 Virtual EE Conference – while we all value the many benefits of an in-person gathering, we are looking forward to creating another fun and interactive conference experience to participants in the comfort of their homes. We learned through our first-ever virtual conference last year that there are some really compelling gains to be made from gathering virtually, and we look forward to another collaborative and successful online event this year!

We anticipate around 200 formal and non-formal educators from across Kansas and Missouri will attend the conference, including some who are able to attend for the first time thanks to our online format! Our conference attendees are educated consumers who are happy to support environmentally responsible companies, industry, and educational organizations.

Please consider helping KACEE and MEEA bring the best possible experience to our EE communities by becoming a sponsor of the 2021 Environmental Education Virtual Conference!

THANK YOU FOR YOUR CONSIDERATION,

Lesli Moylan
MEEA Executive Director

The success of our conference depends on the generosity of our sponsors
